## EXPERIENCE

### ► Frontend Developer @ Xpand IT May 2022 – Present

- Developed and contributed to a cutting-edge platform designed to efficiently manage and report archive migrations from various legacy platforms to a centralized repository.

### ► Frontend Developer @ Cottonhat April 2019 – May 2022

- Worked with a variety of different languages, frameworks, and DevOps tools such as JavaScript, TypeScript, React, React Native, Redux, Next.js, Docker etc...
- Crafted a Loyalty Mobile Application using React Native, Expo and also integrated with client API
- Migrated an outdated Headless CMS from Backbone.js to React.js + Redux.js + Bootstrap, with a new design. This change helped the platform be more modern, fast, responsive, along with better structured code and modularized components which made work easier and more efficient
- Gained an understanding of how online stores work and what it takes to implement one by virtue of developing various online stores using Next.js and SSR
- Created CRM platforms, some related to Property Management, Pharma Industry and consultancy in production/preservation of forests, to help businesses be more productive and automate their daily work
- Communicated effectively with the team and clients in order to achieve the best results

### ► Collaborator @ NOS Lusomundo Audiovisuais 2017 – 2019

## UNIQUE EXPERIENCE

### ► Whitebrim – Alpha Startup @ Web Summit 2019

- Attended as a Startup Employee where we had our stand and pitched our product to hundreds of people. With this experience I developed communication and improv skills
